https://en.wikibooks.org/wiki/ICT4_Elderly;

<https://digital-skills-jobs.europa.eu/en/inspiration/resources/ict4-elderly-handbook>

The learning strategy provides for the teaching content of the ICT 4 the Elderly project, introducing 6 Competences Areas:

- (Intentional) digital communication
- Digital transactions
- Smart living for well-being
- Digital collaboration
- Security and privacy
- Self-organisation

Digital Educational Tools

<https://socialna-akademija.si/digitaleducationaltools/>

A useful catalog of a variety of educational tools that can be adapted to several target groups.

Scratch

<https://scratch.mit.edu/>

It can be a powerful tool to teach seniors to approach programming. Through its visual step-by-step approach, Scratch helps users to learn through exploration and have an active role in the learning process.

CINAGE

<https://cinage.aidlearn.pt/en/>

An innovative and creative methodology that can play a key role in boosting seniors' engagement and supporting the active ageing.

Kwido

<https://kwido.com/>

Trainers can enrol students in different cognitive trainings and gather and analyse the results from the activities
